quasar CNG Fueling Station Open House

October 17, 2012 1:30 PM
2506 Jackson Pike, Columbus, Ohio 43223

State Senator Tom Patton, the City of Columbus, Ohio EPA, the Solid Waste Authority of Central Ohio (SWACO), Clean Fuels Ohio, G&J Pepsi Cola Bottling Co., Air Products and Kurtz Bros., Inc. join quasar energy group to celebrate innovations in renewable fuel. quasar's public compressed natural gas (CNG) fueling station is located at the company's anaerobic digestion facility in Central Ohio, offering fleets and small vehicle owners cleaner burning fuel that costs less than gasoline or diesel.

Guest speakers:

State Senator Tom Patton
Scott Nally, Director, Ohio EPA
Ron Mills, Director, SWACO
Sam Spofforth, Director, Clean Fuels Ohio
Mike Niehaus, Director of Operations, G&J Pepsi Cola Bottling Co.
Robert Lewis, Global Marketing Manager, Air Products
Clemens Halene, Chief Operating Officer, quasar energy group
Steve Smith, Chief Financial Officer, quasar energy group

quasar energy group is a Cleveland, Ohio based waste-to-energy company with a state-of-the-art laboratory and engineering facility on The Ohio State University's OARDC campus. quasar designs, builds, owns and operates anaerobic digestion facilities, using U.S. components to produce cleaner, renewable electricity, natural gas and vehicle fuel.
